## AMS100

### Electronic Article Surveillance

Consumption, reduce business operating costs, improve customer shopping experience, simple and generous appearance, powerful performance, complete functions, is the business super loss prevention system

Remote  
Debugging

Encrypted  
System

#### Characteristic

- Suitable for high-end retail shops, clothes stores, supermarkets, etc.
- Excellent performance and easy to install with better detection

#### Product Function

- Anti-theft label detection
- Sound and light alarm
- Phase synchronization
- Remote Debugging

#### Product Feature

- Ultra-far detection distance
- Stable hardware and software performance
- Strong anti-interference ability
- Super signal processing
- Energy saving and environmental protection

#### DIMENSIONS

Height: 1.62 METERS / 5.31 FEET  
Width: 0.50 METERS / 1.640 FEET  
Depth: 0.18 METERS / 0.590 FEET

#### AISLE WIDTHS

AM Label 1.4 - 1.8 Meters/4.5 Feet to 5.9 Feet  
AM Hard tag 1.6 - 2.5 Meters/5.2 Feet to 8.2 Feet

#### FREQUENCY

58 KHz
