## AMV100

### Electronic Article Surveillance

Acoustic magnetic anti-theft antenna is a kind of anti-theft equipment that can effectively identify the AM band anti-theft label, and the product can effectively reduce the loss of goods theft,

Consumption, reduce business operating costs, improve customer shopping experience, simple and generous appearance, powerful performance, complete functions, is the business super loss prevention system

Remote  
Debugging

Encrypted  
System

### Product Function

- Anti-theft label detection
- Sound and light alarm
- Phase synchronization
- Remote Debugging

### Product Feature

- Ultra-far detection distance
- Stable hardware and software performance
- Strong anti-interference ability
- Super signal processing
- Energy saving and environmental protection

#### DIMENSIONS

Height: 1.53 METERS / 5.019 FEET  
Width: 0.40 METERS / 1.312 FEET  
Depth: 0.03 METERS / 0.098 FEET

#### AISLE WIDTHS

AM Label 1.6 - 1.8 Meters/5.2 Feet to 6 Feet  
AM Hard tag 1.6 - 2.8 Meters/5.2 Feet to 9 Feet

#### FREQUENCY

58 KHz
