Electronic Article Surveillance

Consumption, reduce business operating costs, improve customer shopping experience, simple and generous appearance, powerful performance, complete functions, is the business super loss prevention system

**DSP** Technology

PMMA Acrylic

Characteristic

- Working Mode: TX+RX or MONO
- Excellent performance and easy to install with better detection

Product Function

- Anti-theft label detection
- Sound and light alarm
- Auto synchronization
- Auto- adjusting Digital Signal Processing (DSP)
- PMMA Acrylic frame

Product Feature

- Ultra-far detection distance
- Stable hardware and software performance
- Strong anti-interference ability
- Super signal processing
- Energy saving and environmental protection

DIMENSIONS
Height: 1.56 METERS / 5.11 FEET
Width: 0.43 METERS / 1.410 FEET
Depth: 0.02 METERS / 0.065 FEET

AISLE WIDTHS
RF Label 1.4 - 1.8 Meters/4.5 Feet to 5.9 Feet
Hard tag 1.6 - 2.5 Meters/5.2 Feet to 8.2 Feet

FREQUENCY
8.2 MHz EU
